

Merced County Redistricting 2021

Public Participation Kit

Total Population by Population Unit

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population.

According to current population estimates, the population of each of the five districts must be close to 54,500, with no more than a 5,450 difference between the largest and smallest. (Final numbers may differ once the official 2020 Census data are available.)

The dark-shaded areas are cities. The lighter-shaded areas are unincorporated "Census Designated Places, or CDPs." Labels are removed for readability.

You can draw a population-balanced proposed set of districts, or just draw the neighborhood / community of interest that you want to see kept together in the final map.

Please use a thick dark-colored pen to draw your map, then submit it at the County Administrative Center or by email to Redistricting@countyofmerced.com. You can hand deliver, mail, fax, scan and email, or photograph and email your map.

An online version of this map that allows you to zoom in and out for more detail is available as a link from the project website.
